RE: Clarification Preparation for Non-destructive Testing and Inspection

Nov 23rd, 2017

TO: ALL UA/IBB locals,

Please be advised as per the Constitution of the Quality Control Council of Canada (QCC): That the International Brotherhood of Boilermakers Union of Canada (IBB) and the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of Canada (UA), have determined that all post-grinding, wire wheel flapper/buffing, filing, cleaning, stripping of weldments and equipment **done in preparation for Non-destructive Testing and Inspection(s)** is the work of the QCC, with the understanding that the QCC Technicians do not alter the integrity of the weldments or equipment and do only what is reasonably necessary to satisfactorily perform their inspection duties.

It is further understood that all grinding, wire wheel flapper/buffing, etc. **for weld preparation or finish** shall remain the work of the UA and/or the IBB's and their members. If no UA or IBB signatory contractors are present the QCC may claim jurisdiction of all grinding, buffing etc. whether it be Pre-or Post Welding or Inspection on such material(s) as described above.

Trusting this will be of assistance,

A handwritten signature in black ink, appearing to read "J Maloney".
